UI Developer

Date: 28 Aug 2026

Location: Bangalore, IN

Company: Alstom

At Alstom, we understand transport networks and what moves people. From high-speed trains, metros, monorails, and trams, to turnkey systems, services, infrastructure, signalling, and digital mobility, we offer our diverse customers the broadest portfolio in the industry. Every day, 80,000 colleagues lead the way to greener and smarter mobility worldwide, connecting cities as we reduce carbon and replace cars.

Could you be the full-time UI Developer in Bangalore we're looking for?

Your future role

Take on a new challenge and apply your front-end development expertise in a cutting-edge field. You'll work alongside collaborative, innovative, and forward-thinking teammates.

You'll help shape the future of Alstom's digital transformation by building intuitive, scalable, and high-performing web applications. Day-to-day, you'll work closely with teams across the business (e.g., product managers, UX designers, backend developers), develop reusable components, and ensure the seamless integration of front-end applications with backend services, and much more.
You'll specifically take care of translating UI/UX designs into scalable code, but also optimizing applications for performance, scalability, and accessibility.
We'll look to you for:

- Developing and maintaining responsive web applications using Angular and React frameworks
- Building reusable components and front-end modules
- Integrating front-end applications with RESTful APIs and backend services
- Ensuring cross-browser and cross-device compatibility
- Writing clean, maintainable, and well-documented code
- Participating in code reviews, debugging, troubleshooting, and performance tuning

All about you

We value passion and attitude over experience. That's why we don't expect you to have every single skill. Instead, we've listed some that we think will help you succeed and grow in this role:

- Degree in Computer Science, Information Technology, or a related field
- Experience or understanding of front-end technologies such as HTML5, CSS3/SCSS, JavaScript (ES6+), and TypeScript
- Hands-on experience with Angular (v10+) and React.js frameworks
- Knowledge of responsive web design and single-page applications (SPAs)
- Familiarity with state management tools like Redux, Context API, or RxJS
- A basic understanding of cloud platforms such as Azure or AWS
- Experience with accessibility standards (WCAG) is a plus
- Strong analytical and problem-solving abilities
- Good verbal and written communication skills
- Ability to work collaboratively in cross-functional teams

Things you'll enjoy Join us on a life-long transformative journey – the rail industry is here to stay, so you can grow and develop new skills and experiences throughout your career. You'll also:

We use cookies to offer you the best possible website experience. Your cookie preferences will be stored in your browser's local storage. This includes cookies necessary for the website's operation. Your experience of the site and the services we are able to offer may be impacted if you do not accept all cookies.

- Enjoy stability, challenges, and a long-term career free from boring daily routines
- Work with new security standards for rail signalling
- Collaborate with transverse teams and helpful colleagues
- Contribute to innovative projects
- Utilise our agile and inclusive working environment
- Steer your career in whatever direction you choose across functions and countries
- Benefit from our investment in your development, through award-winning learning

- Progress towards roles such as Senior UI Developer or Technical Lead
- Benefit from a fair and dynamic reward package that recognises your performance and potential, plus comprehensive and competitive social coverage (life, medical, pension)

You don’t need to be a train enthusiast to thrive with us. We guarantee that when you step onto one of our trains with your friends or family, you’ll be proud. If you’re up for the challenge, we’d love to hear from you!

Important to note

As a global business, we’re an equal-opportunity employer that celebrates diversity across the 63 countries we operate in. We’re committed to creating an inclusive workplace for everyone.
