Become a Part of the NIKE, Inc. Team

NIKE, Inc. does more than outfit the world's best athletes. It is a place to explore potential, obliterate boundaries and push out the edges of what can be. The company looks for people who can grow, think, dream and create. Its culture thrives by embracing diversity and rewarding imagination. The brand seeks achievers, leaders and visionaries. At NIKE, Inc. it's about each person bringing skills and passion to a challenging and constantly evolving game.

WHO YOU'LL WORK WITH

software tools for enabling creation of Nike's Footwear and Apparel
and report to the team's Software Engineering Manager based in Bengaluru. You will collaborate with a team of engineers in partnership with the team's Product Manager working on software projects to achieve Nike's business objectives.

WHO WE ARE LOOKING FOR

We're
looking for a Software Engineer to solve problems supporting Nike's pursuit of delivering state of the art tools to our product designers
and broader creation community. The candidate needs to be highly collaborative with peers, productive in a fast-paced development environment.

What you bring:

- Bachelor's degree in Computer Science
, Engineering, Information Systems, or equivalent experience

- 0–2 years of software development experience
- Experience with React or Vue.js
- Experience
with cloud architecture, DevOps, infrastructure as code, CI/CD, and related tools

- Experience with AWS services including Lambda, Step Functions, DynamoDB,
Elasticsearch, and S3

- Experience with Mocha, Jasmine, and Jest
- Strong grasp of design patterns and computer science fundamentals
- Preferred experience with AI, machine learning, and data solutions

- Strong verbal and written communication skills
- Ability to build strong collaborative relationships

WHAT YOU'LL WORK ON

You will be part of a team of engineers building software solutions for our partners in the Nike design community. These are some things you will work on:

- Design, develop, and operate scalable software solutions that support Nike's design and creation community across web, front-end, and cloud-native platforms
- Build and enhance responsive, accessible, and performant web experiences using modern front-end technologies, design systems, and browser capabilities
- Build and integrate cloud-native platforms, applications, APIs, and services using an API-first engineering approach
- Develop sofware by participating in Agile sprint ceremonies and working on software tasks assigned to you
- Collaborate closely with other engineers, product managers, designers, and business partners to deliver intuitive, reliable, and high-quality software solutions
- Support the full software development lifecycle, including development, testing, deployment, monitoring, and operational excellence

NIKE, Inc. is a growth company that looks for team members to grow with it. Nike offers a generous total rewards package, casual work environment, a diverse and inclusive culture, and an electric atmosphere for professional development. No matter the location, or the role, every Nike employee shares one galvanizing mission: To bring inspiration and innovation to every athlete* in the world.

NIKE, Inc. is an equal opportunity employer. Qualified applicants will receive consideration without regard to race, color, religion, sex, national origin, age, sexual orientation, gender identity, gender expression, veteran status, or disability.

What You Can Expect

OUR HIRING GAME PLAN

01 Apply

Our teams are made up of diverse skillsets, knowledge bases, inputs, ideas and backgrounds. We want you to find your fit – review job descriptions, departments and teams to discover the role for you.

02 Meet a Recruiter or Take an Assessment

If selected for a corporate role, a recruiter will reach out to start your interview process and be your main contact throughout the process. For retail roles, you'll complete an interactive assessment that includes a chat and quizzes and takes about 10-20 minutes to complete. No matter the role, we want to learn about you – the whole you – so don't shy away from how you approach world-class service and what makes you unique.

03 Interview

Go into this stage confident by doing your research, understanding what we are looking for and being prepared for questions that are set up to learn more about you, and your background.

Information for NYC Applicants

We offer a number of accommodations to complete our interview process including screen readers, sign language interpreters, accessible and single location for in-person interviews, closed captioning, and other reasonable modifications as needed.

If you discover, as you navigate our application process, that you need assistance or an accommodation due to a disability, please contact us at +1 503-671-4156 and include your full name, best way to reach you, and the accommodation you request to assist with the application process.
